

PRACTICAL COURSE WORKBOOK

AI Policy: From Principles to Legislation

Use evidence to explain a public-interest problem

LEVEL	Beginner
GUIDED TIME	5 hours across 12 lessons
PROJECT	an evidence brief with a reproducible analysis
SKILLS	AI policy, EU AI Act, US AI policy, Governance, Regulation, Critical evaluation
EDITION	Structured draft - version 0.9

WHAT YOU WILL BE ABLE TO DO

- Use AI policy appropriately in a realistic, bounded task.
- Use EU AI Act appropriately in a realistic, bounded task.
- Use US AI policy appropriately in a realistic, bounded task.
- Use Governance appropriately in a realistic, bounded task.

WHO THIS IS FOR

Public-interest learners using evidence and technology responsibly.

BEFORE YOU BEGIN

- Basic research and spreadsheet skills

Use this workbook with the online lessons. It is designed for A4 printing, handwritten evidence notes, and offline revision. It does not provide certification.

WORKBOOK GUIDE

A clear route through the course

AI Policy: From Principles to Legislation is a structured, practical course covering AI policy, EU AI Act, US AI policy, Governance, Regulation. It emphasizes explainable methods, checked work and a final outcome that can be reviewed.

MODULE	LESSONS AND FOCUS
01 AI policy: Public problems	1. Stakeholders with AI policy 2. Institutions with EU AI Act 3. Evidence with US AI policy
02 EU AI Act: Digital methods	1. Open data with Governance 2. Services with Regulation 3. Participation with AI policy
03 US AI policy: Policy design	1. Options with EU AI Act 2. Impact with US AI policy 3. Implementation with Governance
04 Governance: Accountability	1. Measurement with Regulation 2. Transparency with AI policy 3. Maintenance with EU AI Act

HOW TO USE EACH LESSON PAGE

- 1 Read the objective and identify the decision it supports.
- 2 Attempt the retrieval prompt before checking the online explanation.
- 3 Reproduce the worked example with the stated input.
- 4 Test one normal case and one boundary or failure case.
- 5 Record the result, limitation and next action in the evidence log.

PRINT AND FILE

Print at 100% scale on A4 paper. Use double-sided printing with long-edge binding. Keep completed pages with the project files named in the evidence log.

MODULE 01

AI policy: Public problems

Apply AI policy through stakeholders, institutions, evidence.

LESSON 01 / 18 MIN

Stakeholders with AI policy

Learning objectives

- Explain stakeholders in the context of AI Policy: From Principles to Legislation.
- Apply AI policy to a bounded practical task.
- Evaluate the result using explicit quality criteria.

Key terms

stakeholders, AI policy, policy

Retrieval prompt

In AI Policy: From Principles to Legislation, which evidence best supports a stakeholders result produced with AI policy?

Evidence to keep

☐ Original input ☐ Observed result ☐ Boundary or failure result ☐ Limitation and next action

LESSON 02 / 22 MIN

Institutions with EU AI Act

Learning objectives

- Explain institutions in the context of AI Policy: From Principles to Legislation.
- Apply EU AI Act to a bounded practical task.
- Evaluate the result using explicit quality criteria.

Key terms

institutions, EU AI Act, policy

Retrieval prompt

In AI Policy: From Principles to Legislation, which evidence best supports a institutions result produced with EU AI Act?

Evidence to keep

☐ Original input ☐ Observed result ☐ Boundary or failure result ☐ Limitation and next action

LESSON 03 / 26 MIN

Evidence with US AI policy

Learning objectives

- Explain evidence in the context of AI Policy: From Principles to Legislation.
- Apply US AI policy to a bounded practical task.
- Evaluate the result using explicit quality criteria.

Key terms

evidence, US AI policy, policy

Retrieval prompt

In AI Policy: From Principles to Legislation, which evidence best supports a evidence result produced with US AI policy?

Evidence to keep

[] Original input [] Observed result [] Boundary or failure result [] Limitation and next action

MODULE REVIEW

Turn the module into usable evidence

1. RETRIEVE

Without checking the lessons, explain the module's three most important ideas in your own words.

2. APPLY

Describe the example or file you produced, the input used, and the result you observed.

3. REVIEW

Record one uncertainty, one source to recheck, and the next deliberate practice action.

MODULE 02

EU AI Act: Digital methods

Apply EU AI Act through open data, services, participation.

LESSON 04 / 30 MIN

Open data with Governance

Learning objectives

- Explain open data in the context of AI Policy: From Principles to Legislation.
- Apply Governance to a bounded practical task.
- Evaluate the result using explicit quality criteria.

Key terms

open data, Governance, policy

Retrieval prompt

In AI Policy: From Principles to Legislation, which evidence best supports a open data result produced with Governance?

Evidence to keep

☐ Original input ☐ Observed result ☐ Boundary or failure result ☐ Limitation and next action

LESSON 05 / 18 MIN

Services with Regulation

Learning objectives

- Explain services in the context of AI Policy: From Principles to Legislation.
- Apply Regulation to a bounded practical task.
- Evaluate the result using explicit quality criteria.

Key terms

services, Regulation, policy

Retrieval prompt

In AI Policy: From Principles to Legislation, which evidence best supports a services result produced with Regulation?

Evidence to keep

☐ Original input ☐ Observed result ☐ Boundary or failure result ☐ Limitation and next action

LESSON 06 / 22 MIN

Participation with AI policy

Learning objectives

- Explain participation in the context of AI Policy: From Principles to Legislation.
- Apply AI policy to a bounded practical task.
- Evaluate the result using explicit quality criteria.

Key terms

participation, AI policy, policy

Retrieval prompt

In AI Policy: From Principles to Legislation, which evidence best supports a participation result produced with AI policy?

Evidence to keep

[] Original input [] Observed result [] Boundary or failure result [] Limitation and next action

MODULE REVIEW

Turn the module into usable evidence

1. RETRIEVE

Without checking the lessons, explain the module's three most important ideas in your own words.

2. APPLY

Describe the example or file you produced, the input used, and the result you observed.

3. REVIEW

Record one uncertainty, one source to recheck, and the next deliberate practice action.

MODULE 03

US AI policy: Policy design

Apply US AI policy through options, impact, implementation.

LESSON 07 / 26 MIN

Options with EU AI Act

Learning objectives	- Explain options in the context of AI Policy: From Principles to Legislation. - Apply EU AI Act to a bounded practical task. - Evaluate the result using explicit quality criteria.
Key terms	options, EU AI Act, policy
Retrieval prompt	In AI Policy: From Principles to Legislation, which evidence best supports a options result produced with EU AI Act?
Evidence to keep	☐ Original input ☐ Observed result ☐ Boundary or failure result ☐ Limitation and next action

LESSON 08 / 30 MIN

Impact with US AI policy

Learning objectives	- Explain impact in the context of AI Policy: From Principles to Legislation. - Apply US AI policy to a bounded practical task. - Evaluate the result using explicit quality criteria.
Key terms	impact, US AI policy, policy
Retrieval prompt	In AI Policy: From Principles to Legislation, which evidence best supports a impact result produced with US AI policy?
Evidence to keep	☐ Original input ☐ Observed result ☐ Boundary or failure result ☐ Limitation and next action

LESSON 09 / 18 MIN

Implementation with Governance

Learning objectives	- Explain implementation in the context of AI Policy: From Principles to Legislation. - Apply Governance to a bounded practical task. - Evaluate the result using explicit quality criteria.
Key terms	implementation, Governance, policy
Retrieval prompt	In AI Policy: From Principles to Legislation, which evidence best supports a implementation result produced with Governance?

Evidence to keep

[] Original input [] Observed result [] Boundary or failure result [] Limitation and next action

MODULE REVIEW

Turn the module into usable evidence

1. RETRIEVE

Without checking the lessons, explain the module's three most important ideas in your own words.

2. APPLY

Describe the example or file you produced, the input used, and the result you observed.

3. REVIEW

Record one uncertainty, one source to recheck, and the next deliberate practice action.

MODULE 04

Governance: Accountability

Apply Governance through measurement, transparency, maintenance.

LESSON 10 / 22 MIN

Measurement with Regulation

Learning objectives

- Explain measurement in the context of AI Policy: From Principles to Legislation.
- Apply Regulation to a bounded practical task.
- Evaluate the result using explicit quality criteria.

Key terms

measurement, Regulation, policy

Retrieval prompt

In AI Policy: From Principles to Legislation, which evidence best supports a measurement result produced with Regulation?

Evidence to keep

☐ Original input ☐ Observed result ☐ Boundary or failure result ☐ Limitation and next action

LESSON 11 / 26 MIN

Transparency with AI policy

Learning objectives

- Explain transparency in the context of AI Policy: From Principles to Legislation.
- Apply AI policy to a bounded practical task.
- Evaluate the result using explicit quality criteria.

Key terms

transparency, AI policy, policy

Retrieval prompt

In AI Policy: From Principles to Legislation, which evidence best supports a transparency result produced with AI policy?

Evidence to keep

☐ Original input ☐ Observed result ☐ Boundary or failure result ☐ Limitation and next action

LESSON 12 / 30 MIN

Maintenance with EU AI Act

Learning objectives

- Explain maintenance in the context of AI Policy: From Principles to Legislation.
- Apply EU AI Act to a bounded practical task.
- Evaluate the result using explicit quality criteria.

Key terms

maintenance, EU AI Act, policy

Retrieval prompt

In AI Policy: From Principles to Legislation, which evidence best supports a maintenance result produced with EU AI Act?

Evidence to keep

☐ Original input ☐ Observed result ☐ Boundary or failure result ☐ Limitation and next action

MODULE REVIEW

Turn the module into usable evidence

1. RETRIEVE

Without checking the lessons, explain the module's three most important ideas in your own words.

2. APPLY

Describe the example or file you produced, the input used, and the result you observed.

3. REVIEW

Record one uncertainty, one source to recheck, and the next deliberate practice action.

CAPSTONE PROJECT

Produce a reviewable AI Policy: From Principles to Legislation project using AI policy, EU AI Act, US AI policy.

DELIVERABLE	A working AI Policy: From Principles to Legislation artefact plus an evidence-based self-review.
TOOLS	A suitable AI policy environment, A plain-text decision log, Test data or realistic sample material

Production plan

- 1 Define the intended user, outcome and constraints.
- 2 Create the smallest complete result using AI policy.
- 3 Test one normal case, one boundary case and one failure response.
- 4 Revise the work from the evidence and preserve before-and-after results.
- 5 Prepare a concise handover containing method, limitations and next step.

Definition of done

- The output matches the stated outcome.
- Inputs and decisions are reproducible.
- Boundary and failure evidence is included.
- Limitations and responsibility considerations are explicit.

PROJECT EVIDENCE

Document decisions another person can review

1. PURPOSE AND USER

State the intended user, need, expected outcome and constraints.

2. INPUTS AND ASSUMPTIONS

List source files, data, versions, permissions and assumptions.

PROJECT EVIDENCE

Tests, limitations and revision

3. NORMAL CASE

Expected result, observed result and evidence location.

4. BOUNDARY OR FAILURE CASE

What was difficult, what happened and why it matters.

5. REVISION AND LIMITATION

What changed, what improved and what remains unproven.

REVIEW AND SOURCES

Make the work credible and repeatable

Final self-review

- Can another learner repeat the method?
- Did I test a difficult case?
- Did I avoid unsupported claims?
- Is the next action proportionate to the remaining risk?

FINAL DECISION

Is the project ready to share? State the evidence, remaining risk, owner and next review date.
