

PRACTICAL COURSE WORKBOOK

Civic Tech - Technology for Public Good

Use evidence to explain a public-interest problem

LEVEL	Beginner
GUIDED TIME	5 hours across 12 lessons
PROJECT	an evidence brief with a reproducible analysis
SKILLS	Civic tech, Open data, Government, Digital services, APIs, Critical evaluation
EDITION	Structured draft - version 0.9

WHAT YOU WILL BE ABLE TO DO

- Use Civic tech appropriately in a realistic, bounded task.
- Use Open data appropriately in a realistic, bounded task.
- Use Government appropriately in a realistic, bounded task.
- Use Digital services appropriately in a realistic, bounded task.

WHO THIS IS FOR

Public-interest learners using evidence and technology responsibly.

BEFORE YOU BEGIN

- Basic research and spreadsheet skills

Use this workbook with the online lessons. It is designed for A4 printing, handwritten evidence notes, and offline revision. It does not provide certification.

WORKBOOK GUIDE

A clear route through the course

Civic Tech - Technology for Public Good is a structured, practical course covering Civic tech, Open data, Government, Digital services, APIs. It emphasizes explainable methods, checked work and a final outcome that can be reviewed.

MODULE	LESSONS AND FOCUS
01 Civic tech: Public problems	1. Stakeholders with Civic tech 2. Institutions with Open data 3. Evidence with Government
02 Open data: Digital methods	1. Open data with Digital services 2. Services with APIs 3. Participation with Civic tech
03 Government: Policy design	1. Options with Open data 2. Impact with Government 3. Implementation with Digital services
04 Digital services: Accountability	1. Measurement with APIs 2. Transparency with Civic tech 3. Maintenance with Open data

HOW TO USE EACH LESSON PAGE

- 1 Read the objective and identify the decision it supports.
- 2 Attempt the retrieval prompt before checking the online explanation.
- 3 Reproduce the worked example with the stated input.
- 4 Test one normal case and one boundary or failure case.
- 5 Record the result, limitation and next action in the evidence log.

PRINT AND FILE

Print at 100% scale on A4 paper. Use double-sided printing with long-edge binding. Keep completed pages with the project files named in the evidence log.

MODULE 01

Civic tech: Public problems

Apply Civic tech through stakeholders, institutions, evidence.

LESSON 01 / 18 MIN

Stakeholders with Civic tech

Learning objectives

- Explain stakeholders in the context of Civic Tech - Technology for Public Good.
- Apply Civic tech to a bounded practical task.
- Evaluate the result using explicit quality criteria.

Key terms

stakeholders, Civic tech, policy

Retrieval prompt

In Civic Tech - Technology for Public Good, which evidence best supports a stakeholders result produced with Civic tech?

Evidence to keep

☐ Original input ☐ Observed result ☐ Boundary or failure result ☐ Limitation and next action

LESSON 02 / 22 MIN

Institutions with Open data

Learning objectives

- Explain institutions in the context of Civic Tech - Technology for Public Good.
- Apply Open data to a bounded practical task.
- Evaluate the result using explicit quality criteria.

Key terms

institutions, Open data, policy

Retrieval prompt

In Civic Tech - Technology for Public Good, which evidence best supports a institutions result produced with Open data?

Evidence to keep

☐ Original input ☐ Observed result ☐ Boundary or failure result ☐ Limitation and next action

LESSON 03 / 26 MIN

Evidence with Government

Learning objectives

- Explain evidence in the context of Civic Tech - Technology for Public Good.
- Apply Government to a bounded practical task.
- Evaluate the result using explicit quality criteria.

Key terms

evidence, Government, policy

Retrieval prompt

In Civic Tech - Technology for Public Good, which evidence best supports a evidence result produced with Government?

Evidence to keep

[] Original input [] Observed result [] Boundary or failure result [] Limitation and next action

MODULE REVIEW

Turn the module into usable evidence

1. RETRIEVE

Without checking the lessons, explain the module's three most important ideas in your own words.

2. APPLY

Describe the example or file you produced, the input used, and the result you observed.

3. REVIEW

Record one uncertainty, one source to recheck, and the next deliberate practice action.

MODULE 02

Open data: Digital methods

Apply Open data through open data, services, participation.

LESSON 04 / 30 MIN

Open data with Digital services

Learning objectives	- Explain open data in the context of Civic Tech - Technology for Public Good. - Apply Digital services to a bounded practical task. - Evaluate the result using explicit quality criteria.
Key terms	open data, Digital services, policy
Retrieval prompt	In Civic Tech - Technology for Public Good, which evidence best supports a open data result produced with Digital services?
Evidence to keep	☐ Original input ☐ Observed result ☐ Boundary or failure result ☐ Limitation and next action

LESSON 05 / 18 MIN

Services with APIs

Learning objectives	- Explain services in the context of Civic Tech - Technology for Public Good. - Apply APIs to a bounded practical task. - Evaluate the result using explicit quality criteria.
Key terms	services, APIs, policy
Retrieval prompt	In Civic Tech - Technology for Public Good, which evidence best supports a services result produced with APIs?
Evidence to keep	☐ Original input ☐ Observed result ☐ Boundary or failure result ☐ Limitation and next action

LESSON 06 / 22 MIN

Participation with Civic tech

Learning objectives	- Explain participation in the context of Civic Tech - Technology for Public Good. - Apply Civic tech to a bounded practical task. - Evaluate the result using explicit quality criteria.
Key terms	participation, Civic tech, policy
Retrieval prompt	In Civic Tech - Technology for Public Good, which evidence best supports a participation result produced with Civic tech?

Evidence to keep

[] Original input [] Observed result [] Boundary or failure result [] Limitation and next action

MODULE REVIEW

Turn the module into usable evidence

1. RETRIEVE

Without checking the lessons, explain the module's three most important ideas in your own words.

2. APPLY

Describe the example or file you produced, the input used, and the result you observed.

3. REVIEW

Record one uncertainty, one source to recheck, and the next deliberate practice action.

MODULE 03

Government: Policy design

Apply Government through options, impact, implementation.

LESSON 07 / 26 MIN

Options with Open data

Learning objectives

- Explain options in the context of Civic Tech - Technology for Public Good.
- Apply Open data to a bounded practical task.
- Evaluate the result using explicit quality criteria.

Key terms

options, Open data, policy

Retrieval prompt

In Civic Tech - Technology for Public Good, which evidence best supports a options result produced with Open data?

Evidence to keep

☐ Original input ☐ Observed result ☐ Boundary or failure result ☐ Limitation and next action

LESSON 08 / 30 MIN

Impact with Government

Learning objectives

- Explain impact in the context of Civic Tech - Technology for Public Good.
- Apply Government to a bounded practical task.
- Evaluate the result using explicit quality criteria.

Key terms

impact, Government, policy

Retrieval prompt

In Civic Tech - Technology for Public Good, which evidence best supports a impact result produced with Government?

Evidence to keep

☐ Original input ☐ Observed result ☐ Boundary or failure result ☐ Limitation and next action

LESSON 09 / 18 MIN

Implementation with Digital services

Learning objectives

- Explain implementation in the context of Civic Tech - Technology for Public Good.
- Apply Digital services to a bounded practical task.
- Evaluate the result using explicit quality criteria.

Key terms

implementation, Digital services, policy

Retrieval prompt

In Civic Tech - Technology for Public Good, which evidence best supports a implementation result produced with Digital services?

Evidence to keep

[] Original input [] Observed result [] Boundary or failure result [] Limitation and next action

MODULE REVIEW

Turn the module into usable evidence

1. RETRIEVE

Without checking the lessons, explain the module's three most important ideas in your own words.

2. APPLY

Describe the example or file you produced, the input used, and the result you observed.

3. REVIEW

Record one uncertainty, one source to recheck, and the next deliberate practice action.

MODULE 04

Digital services: Accountability

Apply Digital services through measurement, transparency, maintenance.

LESSON 10 / 22 MIN

Measurement with APIs

Learning objectives

- Explain measurement in the context of Civic Tech - Technology for Public Good.
- Apply APIs to a bounded practical task.
- Evaluate the result using explicit quality criteria.

Key terms

measurement, APIs, policy

Retrieval prompt

In Civic Tech - Technology for Public Good, which evidence best supports a measurement result produced with APIs?

Evidence to keep

☐ Original input ☐ Observed result ☐ Boundary or failure result ☐ Limitation and next action

LESSON 11 / 26 MIN

Transparency with Civic tech

Learning objectives

- Explain transparency in the context of Civic Tech - Technology for Public Good.
- Apply Civic tech to a bounded practical task.
- Evaluate the result using explicit quality criteria.

Key terms

transparency, Civic tech, policy

Retrieval prompt

In Civic Tech - Technology for Public Good, which evidence best supports a transparency result produced with Civic tech?

Evidence to keep

☐ Original input ☐ Observed result ☐ Boundary or failure result ☐ Limitation and next action

LESSON 12 / 30 MIN

Maintenance with Open data

Learning objectives

- Explain maintenance in the context of Civic Tech - Technology for Public Good.
- Apply Open data to a bounded practical task.
- Evaluate the result using explicit quality criteria.

Key terms

maintenance, Open data, policy

Retrieval prompt

In Civic Tech - Technology for Public Good, which evidence best supports a maintenance result produced with Open data?

Evidence to keep

☐ Original input ☐ Observed result ☐ Boundary or failure result ☐ Limitation and next action

MODULE REVIEW

Turn the module into usable evidence

1. RETRIEVE

Without checking the lessons, explain the module's three most important ideas in your own words.

2. APPLY

Describe the example or file you produced, the input used, and the result you observed.

3. REVIEW

Record one uncertainty, one source to recheck, and the next deliberate practice action.

CAPSTONE PROJECT

Produce a reviewable Civic Tech - Technology for Public Good project using Civic tech, Open data, Government.

DELIVERABLE	A working Civic Tech - Technology for Public Good artefact plus an evidence-based self-review.
TOOLS	A suitable Civic tech environment, A plain-text decision log, Test data or realistic sample material

Production plan

- 1 Define the intended user, outcome and constraints.
- 2 Create the smallest complete result using Civic tech.
- 3 Test one normal case, one boundary case and one failure response.
- 4 Revise the work from the evidence and preserve before-and-after results.
- 5 Prepare a concise handover containing method, limitations and next step.

Definition of done

- The output matches the stated outcome.
- Inputs and decisions are reproducible.
- Boundary and failure evidence is included.
- Limitations and responsibility considerations are explicit.

PROJECT EVIDENCE

Document decisions another person can review

1. PURPOSE AND USER

State the intended user, need, expected outcome and constraints.

2. INPUTS AND ASSUMPTIONS

List source files, data, versions, permissions and assumptions.

PROJECT EVIDENCE

Tests, limitations and revision

3. NORMAL CASE

Expected result, observed result and evidence location.

4. BOUNDARY OR FAILURE CASE

What was difficult, what happened and why it matters.

5. REVISION AND LIMITATION

What changed, what improved and what remains unproven.

REVIEW AND SOURCES

Make the work credible and repeatable

Final self-review

- Can another learner repeat the method?
- Did I test a difficult case?
- Did I avoid unsupported claims?
- Is the next action proportionate to the remaining risk?

FINAL DECISION

Is the project ready to share? State the evidence, remaining risk, owner and next review date.
