

PRACTICAL COURSE WORKBOOK

AI-Powered Content Creation Business

Develop a service or business process you can explain clearly

LEVEL	Beginner
GUIDED TIME	5 hours across 12 lessons
PROJECT	a client-ready brief, plan and evidence pack
SKILLS	Content, YouTube, Newsletter, AI, Critical evaluation, Documentation
EDITION	Structured draft - version 0.9

WHAT YOU WILL BE ABLE TO DO

- Use Content appropriately in a realistic, bounded task.
- Use YouTube appropriately in a realistic, bounded task.
- Use Newsletter appropriately in a realistic, bounded task.
- Use AI appropriately in a realistic, bounded task.

WHO THIS IS FOR

People developing evidence-based digital products and services.

BEFORE YOU BEGIN

- A problem area or customer group to investigate

Use this workbook with the online lessons. It is designed for A4 printing, handwritten evidence notes, and offline revision. It does not provide certification.

WORKBOOK GUIDE

A clear route through the course

AI-Powered Content Creation Business is a structured, practical course covering Content, YouTube, Newsletter, AI. It emphasizes explainable methods, checked work and a final outcome that can be reviewed.

MODULE	LESSONS AND FOCUS
01 Content: Customer evidence	1. Problem discovery with Content 2. Research with YouTube 3. Positioning with Newsletter
02 YouTube: Offer design	1. Scope with AI 2. Value with Content 3. Pricing with YouTube
03 Newsletter: Delivery	1. Operations with Newsletter 2. Quality with AI 3. Finance with Content
04 AI: Sustainable growth	1. Measurement with YouTube 2. Retention with Newsletter 3. Risk with AI

HOW TO USE EACH LESSON PAGE

- 1 Read the objective and identify the decision it supports.
- 2 Attempt the retrieval prompt before checking the online explanation.
- 3 Reproduce the worked example with the stated input.
- 4 Test one normal case and one boundary or failure case.
- 5 Record the result, limitation and next action in the evidence log.

PRINT AND FILE

Print at 100% scale on A4 paper. Use double-sided printing with long-edge binding. Keep completed pages with the project files named in the evidence log.

MODULE 01

Content: Customer evidence

Apply Content through problem discovery, research, positioning.

LESSON 01 / 18 MIN

Problem discovery with Content

Learning objectives	- Explain problem discovery in the context of AI-Powered Content Creation Business. - Apply Content to a bounded practical task. - Evaluate the result using explicit quality criteria.
Key terms	problem discovery, Content, business
Retrieval prompt	In AI-Powered Content Creation Business, which evidence best supports a problem discovery result produced with Content?
Evidence to keep	☐ Original input ☐ Observed result ☐ Boundary or failure result ☐ Limitation and next action

LESSON 02 / 22 MIN

Research with YouTube

Learning objectives	- Explain research in the context of AI-Powered Content Creation Business. - Apply YouTube to a bounded practical task. - Evaluate the result using explicit quality criteria.
Key terms	research, YouTube, business
Retrieval prompt	In AI-Powered Content Creation Business, which evidence best supports a research result produced with YouTube?
Evidence to keep	☐ Original input ☐ Observed result ☐ Boundary or failure result ☐ Limitation and next action

LESSON 03 / 26 MIN

Positioning with Newsletter

Learning objectives	- Explain positioning in the context of AI-Powered Content Creation Business. - Apply Newsletter to a bounded practical task. - Evaluate the result using explicit quality criteria.
Key terms	positioning, Newsletter, business
Retrieval prompt	In AI-Powered Content Creation Business, which evidence best supports a positioning result produced with Newsletter?

Evidence to keep

[] Original input [] Observed result [] Boundary or failure result [] Limitation and next action

MODULE REVIEW

Turn the module into usable evidence

1. RETRIEVE

Without checking the lessons, explain the module's three most important ideas in your own words.

2. APPLY

Describe the example or file you produced, the input used, and the result you observed.

3. REVIEW

Record one uncertainty, one source to recheck, and the next deliberate practice action.

MODULE 02

YouTube: Offer design

Apply YouTube through scope, value, pricing.

LESSON 04 / 30 MIN

Scope with AI

Learning objectives

- Explain scope in the context of AI-Powered Content Creation Business.
- Apply AI to a bounded practical task.
- Evaluate the result using explicit quality criteria.

Key terms

scope, AI, business

Retrieval prompt

In AI-Powered Content Creation Business, which evidence best supports a scope result produced with AI?

Evidence to keep

☐ Original input ☐ Observed result ☐ Boundary or failure result ☐ Limitation and next action

LESSON 05 / 18 MIN

Value with Content

Learning objectives

- Explain value in the context of AI-Powered Content Creation Business.
- Apply Content to a bounded practical task.
- Evaluate the result using explicit quality criteria.

Key terms

value, Content, business

Retrieval prompt

In AI-Powered Content Creation Business, which evidence best supports a value result produced with Content?

Evidence to keep

☐ Original input ☐ Observed result ☐ Boundary or failure result ☐ Limitation and next action

LESSON 06 / 22 MIN

Pricing with YouTube

Learning objectives

- Explain pricing in the context of AI-Powered Content Creation Business.
- Apply YouTube to a bounded practical task.
- Evaluate the result using explicit quality criteria.

Key terms

pricing, YouTube, business

Retrieval prompt

In AI-Powered Content Creation Business, which evidence best supports a pricing result produced with YouTube?

Evidence to keep

[] Original input [] Observed result [] Boundary or failure result [] Limitation and next action

MODULE REVIEW

Turn the module into usable evidence

1. RETRIEVE

Without checking the lessons, explain the module's three most important ideas in your own words.

2. APPLY

Describe the example or file you produced, the input used, and the result you observed.

3. REVIEW

Record one uncertainty, one source to recheck, and the next deliberate practice action.

MODULE 03

Newsletter: Delivery

Apply Newsletter through operations, quality, finance.

LESSON 07 / 26 MIN

Operations with Newsletter

Learning objectives

- Explain operations in the context of AI-Powered Content Creation Business.
- Apply Newsletter to a bounded practical task.
- Evaluate the result using explicit quality criteria.

Key terms

operations, Newsletter, business

Retrieval prompt

In AI-Powered Content Creation Business, which evidence best supports a operations result produced with Newsletter?

Evidence to keep

☐ Original input ☐ Observed result ☐ Boundary or failure result ☐ Limitation and next action

LESSON 08 / 30 MIN

Quality with AI

Learning objectives

- Explain quality in the context of AI-Powered Content Creation Business.
- Apply AI to a bounded practical task.
- Evaluate the result using explicit quality criteria.

Key terms

quality, AI, business

Retrieval prompt

In AI-Powered Content Creation Business, which evidence best supports a quality result produced with AI?

Evidence to keep

☐ Original input ☐ Observed result ☐ Boundary or failure result ☐ Limitation and next action

LESSON 09 / 18 MIN

Finance with Content

Learning objectives

- Explain finance in the context of AI-Powered Content Creation Business.
- Apply Content to a bounded practical task.
- Evaluate the result using explicit quality criteria.

Key terms

finance, Content, business

Retrieval prompt

In AI-Powered Content Creation Business, which evidence best supports a finance result produced with Content?

Evidence to keep

[] Original input [] Observed result [] Boundary or failure result [] Limitation and next action

MODULE REVIEW

Turn the module into usable evidence

1. RETRIEVE

Without checking the lessons, explain the module's three most important ideas in your own words.

2. APPLY

Describe the example or file you produced, the input used, and the result you observed.

3. REVIEW

Record one uncertainty, one source to recheck, and the next deliberate practice action.

MODULE 04

AI: Sustainable growth

Apply AI through measurement, retention, risk.

LESSON 10 / 22 MIN

Measurement with YouTube

Learning objectives

- Explain measurement in the context of AI-Powered Content Creation Business.
- Apply YouTube to a bounded practical task.
- Evaluate the result using explicit quality criteria.

Key terms

measurement, YouTube, business

Retrieval prompt

In AI-Powered Content Creation Business, which evidence best supports a measurement result produced with YouTube?

Evidence to keep

☐ Original input ☐ Observed result ☐ Boundary or failure result ☐ Limitation and next action

LESSON 11 / 26 MIN

Retention with Newsletter

Learning objectives

- Explain retention in the context of AI-Powered Content Creation Business.
- Apply Newsletter to a bounded practical task.
- Evaluate the result using explicit quality criteria.

Key terms

retention, Newsletter, business

Retrieval prompt

In AI-Powered Content Creation Business, which evidence best supports a retention result produced with Newsletter?

Evidence to keep

☐ Original input ☐ Observed result ☐ Boundary or failure result ☐ Limitation and next action

LESSON 12 / 30 MIN

Risk with AI

Learning objectives

- Explain risk in the context of AI-Powered Content Creation Business.
- Apply AI to a bounded practical task.
- Evaluate the result using explicit quality criteria.

Key terms

risk, AI, business

Retrieval prompt

In AI-Powered Content Creation Business, which evidence best supports a risk result produced with AI?

Evidence to keep

[] Original input [] Observed result [] Boundary or failure result [] Limitation and next action

MODULE REVIEW

Turn the module into usable evidence

1. RETRIEVE

Without checking the lessons, explain the module's three most important ideas in your own words.

2. APPLY

Describe the example or file you produced, the input used, and the result you observed.

3. REVIEW

Record one uncertainty, one source to recheck, and the next deliberate practice action.

CAPSTONE PROJECT

Produce a reviewable AI-Powered Content Creation Business project using Content, YouTube, Newsletter.

DELIVERABLE	A working AI-Powered Content Creation Business artefact plus an evidence-based self-review.
TOOLS	A suitable Content environment, A plain-text decision log, Test data or realistic sample material

Production plan

- 1 Define the intended user, outcome and constraints.
- 2 Create the smallest complete result using Content.
- 3 Test one normal case, one boundary case and one failure response.
- 4 Revise the work from the evidence and preserve before-and-after results.
- 5 Prepare a concise handover containing method, limitations and next step.

Definition of done

- The output matches the stated outcome.
- Inputs and decisions are reproducible.
- Boundary and failure evidence is included.
- Limitations and responsibility considerations are explicit.

PROJECT EVIDENCE

Document decisions another person can review

1. PURPOSE AND USER

State the intended user, need, expected outcome and constraints.

2. INPUTS AND ASSUMPTIONS

List source files, data, versions, permissions and assumptions.

PROJECT EVIDENCE

Tests, limitations and revision

3. NORMAL CASE

Expected result, observed result and evidence location.

4. BOUNDARY OR FAILURE CASE

What was difficult, what happened and why it matters.

5. REVISION AND LIMITATION

What changed, what improved and what remains unproven.

REVIEW AND SOURCES

Make the work credible and repeatable

Final self-review

- Can another learner repeat the method?
- Did I test a difficult case?
- Did I avoid unsupported claims?
- Is the next action proportionate to the remaining risk?

FINAL DECISION

Is the project ready to share? State the evidence, remaining risk, owner and next review date.
