

PRACTICAL COURSE WORKBOOK

AI Research: Perplexity & Gemini

Build a responsible AI workflow for a real work task

LEVEL	Beginner
GUIDED TIME	5 hours across 12 lessons
PROJECT	a documented prompt, verification and revision workflow
SKILLS	Perplexity, Gemini, AI search, Critical evaluation, Documentation
EDITION	Structured draft - version 0.9

WHAT YOU WILL BE ABLE TO DO

- Use Perplexity appropriately in a realistic, bounded task.
- Use Gemini appropriately in a realistic, bounded task.
- Use AI search appropriately in a realistic, bounded task.

WHO THIS IS FOR

People who want dependable, responsible AI-assisted workflows.

BEFORE YOU BEGIN

- Basic computer and web skills

Use this workbook with the online lessons. It is designed for A4 printing, handwritten evidence notes, and offline revision. It does not provide certification.

WORKBOOK GUIDE

A clear route through the course

AI Research: Perplexity & Gemini is a structured, practical course covering Perplexity, Gemini, AI search. It emphasizes explainable methods, checked work and a final outcome that can be reviewed.

MODULE	LESSONS AND FOCUS
01 Perplexity: Foundations	1. Capabilities with Perplexity 2. Limitations with Gemini 3. Responsible use with AI search
02 Gemini: Working methods	1. Clear instructions with Perplexity 2. Context design with Gemini 3. Verification with AI search
03 AI search: Applied workflows	1. Research with Perplexity 2. Creation with Gemini 3. Automation with AI search
04 Perplexity: Quality and review	1. Evaluation with Perplexity 2. Privacy with Gemini 3. Repeatable practice with AI search

HOW TO USE EACH LESSON PAGE

- 1 Read the objective and identify the decision it supports.
- 2 Attempt the retrieval prompt before checking the online explanation.
- 3 Reproduce the worked example with the stated input.
- 4 Test one normal case and one boundary or failure case.
- 5 Record the result, limitation and next action in the evidence log.

PRINT AND FILE

Print at 100% scale on A4 paper. Use double-sided printing with long-edge binding. Keep completed pages with the project files named in the evidence log.

MODULE 01

Perplexity: Foundations

Apply Perplexity through capabilities, limitations, responsible use.

LESSON 01 / 18 MIN

Capabilities with Perplexity

Learning objectives	• Explain capabilities in the context of AI Research: Perplexity & Gemini. • Apply Perplexity to a bounded practical task. • Evaluate the result using explicit quality criteria.
Key terms	capabilities, Perplexity, ai-tools
Retrieval prompt	In AI Research: Perplexity & Gemini, which evidence best supports a capabilities result produced with Perplexity?
Evidence to keep	☐ Original input ☐ Observed result ☐ Boundary or failure result ☐ Limitation and next action

LESSON 02 / 22 MIN

Limitations with Gemini

Learning objectives	• Explain limitations in the context of AI Research: Perplexity & Gemini. • Apply Gemini to a bounded practical task. • Evaluate the result using explicit quality criteria.
Key terms	limitations, Gemini, ai-tools
Retrieval prompt	In AI Research: Perplexity & Gemini, which evidence best supports a limitations result produced with Gemini?
Evidence to keep	☐ Original input ☐ Observed result ☐ Boundary or failure result ☐ Limitation and next action

LESSON 03 / 26 MIN

Responsible use with AI search

Learning objectives	• Explain responsible use in the context of AI Research: Perplexity & Gemini. • Apply AI search to a bounded practical task. • Evaluate the result using explicit quality criteria.
Key terms	responsible use, AI search, ai-tools
Retrieval prompt	In AI Research: Perplexity & Gemini, which evidence best supports a responsible use result produced with AI search?

Evidence to keep

[] Original input [] Observed result [] Boundary or failure result [] Limitation and next action

MODULE REVIEW

Turn the module into usable evidence

1. RETRIEVE

Without checking the lessons, explain the module's three most important ideas in your own words.

2. APPLY

Describe the example or file you produced, the input used, and the result you observed.

3. REVIEW

Record one uncertainty, one source to recheck, and the next deliberate practice action.

MODULE 02

Gemini: Working methods

Apply Gemini through clear instructions, context design, verification.

LESSON 04 / 30 MIN

Clear instructions with Perplexity

Learning objectives	• Explain clear instructions in the context of AI Research: Perplexity & Gemini. • Apply Perplexity to a bounded practical task. • Evaluate the result using explicit quality criteria.
Key terms	clear instructions, Perplexity, ai-tools
Retrieval prompt	In AI Research: Perplexity & Gemini, which evidence best supports a clear instructions result produced with Perplexity?
Evidence to keep	☐ Original input ☐ Observed result ☐ Boundary or failure result ☐ Limitation and next action

LESSON 05 / 18 MIN

Context design with Gemini

Learning objectives	• Explain context design in the context of AI Research: Perplexity & Gemini. • Apply Gemini to a bounded practical task. • Evaluate the result using explicit quality criteria.
Key terms	context design, Gemini, ai-tools
Retrieval prompt	In AI Research: Perplexity & Gemini, which evidence best supports a context design result produced with Gemini?
Evidence to keep	☐ Original input ☐ Observed result ☐ Boundary or failure result ☐ Limitation and next action

LESSON 06 / 22 MIN

Verification with AI search

Learning objectives	• Explain verification in the context of AI Research: Perplexity & Gemini. • Apply AI search to a bounded practical task. • Evaluate the result using explicit quality criteria.
Key terms	verification, AI search, ai-tools
Retrieval prompt	In AI Research: Perplexity & Gemini, which evidence best supports a verification result produced with AI search?

Evidence to keep

[] Original input [] Observed result [] Boundary or failure result [] Limitation and next action

MODULE REVIEW

Turn the module into usable evidence

1. RETRIEVE

Without checking the lessons, explain the module's three most important ideas in your own words.

2. APPLY

Describe the example or file you produced, the input used, and the result you observed.

3. REVIEW

Record one uncertainty, one source to recheck, and the next deliberate practice action.

MODULE 03

AI search: Applied workflows

Apply AI search through research, creation, automation.

LESSON 07 / 26 MIN

Research with Perplexity

Learning objectives

- Explain research in the context of AI Research: Perplexity & Gemini.
- Apply Perplexity to a bounded practical task.
- Evaluate the result using explicit quality criteria.

Key terms

research, Perplexity, ai-tools

Retrieval prompt

In AI Research: Perplexity & Gemini, which evidence best supports a research result produced with Perplexity?

Evidence to keep

[] Original input [] Observed result [] Boundary or failure result [] Limitation and next action

LESSON 08 / 30 MIN

Creation with Gemini

Learning objectives

- Explain creation in the context of AI Research: Perplexity & Gemini.
- Apply Gemini to a bounded practical task.
- Evaluate the result using explicit quality criteria.

Key terms

creation, Gemini, ai-tools

Retrieval prompt

In AI Research: Perplexity & Gemini, which evidence best supports a creation result produced with Gemini?

Evidence to keep

[] Original input [] Observed result [] Boundary or failure result [] Limitation and next action

LESSON 09 / 18 MIN

Automation with AI search

Learning objectives

- Explain automation in the context of AI Research: Perplexity & Gemini.
- Apply AI search to a bounded practical task.
- Evaluate the result using explicit quality criteria.

Key terms

automation, AI search, ai-tools

Retrieval prompt

In AI Research: Perplexity & Gemini, which evidence best supports a automation result produced with AI search?

Evidence to keep

[] Original input [] Observed result [] Boundary or failure result [] Limitation and next action

MODULE REVIEW

Turn the module into usable evidence

1. RETRIEVE

Without checking the lessons, explain the module's three most important ideas in your own words.

2. APPLY

Describe the example or file you produced, the input used, and the result you observed.

3. REVIEW

Record one uncertainty, one source to recheck, and the next deliberate practice action.

MODULE 04

Perplexity: Quality and review

Apply Perplexity through evaluation, privacy, repeatable practice.

LESSON 10 / 22 MIN

Evaluation with Perplexity

Learning objectives	• Explain evaluation in the context of AI Research: Perplexity & Gemini. • Apply Perplexity to a bounded practical task. • Evaluate the result using explicit quality criteria.
Key terms	evaluation, Perplexity, ai-tools
Retrieval prompt	In AI Research: Perplexity & Gemini, which evidence best supports a evaluation result produced with Perplexity?
Evidence to keep	☐ Original input ☐ Observed result ☐ Boundary or failure result ☐ Limitation and next action

LESSON 11 / 26 MIN

Privacy with Gemini

Learning objectives	• Explain privacy in the context of AI Research: Perplexity & Gemini. • Apply Gemini to a bounded practical task. • Evaluate the result using explicit quality criteria.
Key terms	privacy, Gemini, ai-tools
Retrieval prompt	In AI Research: Perplexity & Gemini, which evidence best supports a privacy result produced with Gemini?
Evidence to keep	☐ Original input ☐ Observed result ☐ Boundary or failure result ☐ Limitation and next action

LESSON 12 / 30 MIN

Repeatable practice with AI search

Learning objectives	• Explain repeatable practice in the context of AI Research: Perplexity & Gemini. • Apply AI search to a bounded practical task. • Evaluate the result using explicit quality criteria.
Key terms	repeatable practice, AI search, ai-tools
Retrieval prompt	In AI Research: Perplexity & Gemini, which evidence best supports a repeatable practice result produced with AI search?

Evidence to keep

[] Original input [] Observed result [] Boundary or failure result [] Limitation and next action

MODULE REVIEW

Turn the module into usable evidence

1. RETRIEVE

Without checking the lessons, explain the module's three most important ideas in your own words.

2. APPLY

Describe the example or file you produced, the input used, and the result you observed.

3. REVIEW

Record one uncertainty, one source to recheck, and the next deliberate practice action.

CAPSTONE PROJECT

Produce a reviewable AI Research: Perplexity & Gemini project using Perplexity, Gemini, AI search.

DELIVERABLE	A working AI Research: Perplexity & Gemini artefact plus an evidence-based self-review.
TOOLS	A suitable Perplexity environment, A plain-text decision log, Test data or realistic sample material

Production plan

- 1 Define the intended user, outcome and constraints.
- 2 Create the smallest complete result using Perplexity.
- 3 Test one normal case, one boundary case and one failure response.
- 4 Revise the work from the evidence and preserve before-and-after results.
- 5 Prepare a concise handover containing method, limitations and next step.

Definition of done

- The output matches the stated outcome.
- Inputs and decisions are reproducible.
- Boundary and failure evidence is included.
- Limitations and responsibility considerations are explicit.

PROJECT EVIDENCE

Document decisions another person can review

1. PURPOSE AND USER
State the intended user, need, expected outcome and constraints.

2. INPUTS AND ASSUMPTIONS
List source files, data, versions, permissions and assumptions.

PROJECT EVIDENCE

Tests, limitations and revision

3. NORMAL CASE

Expected result, observed result and evidence location.

4. BOUNDARY OR FAILURE CASE

What was difficult, what happened and why it matters.

5. REVISION AND LIMITATION

What changed, what improved and what remains unproven.

REVIEW AND SOURCES

Make the work credible and repeatable

Final self-review

- Can another learner repeat the method?
- Did I test a difficult case?
- Did I avoid unsupported claims?
- Is the next action proportionate to the remaining risk?

FINAL DECISION

Is the project ready to share? State the evidence, remaining risk, owner and next review date.
