

PRACTICAL COURSE WORKBOOK

Launch a SaaS Product

Develop a service or business process you can explain clearly

LEVEL	Intermediate
GUIDED TIME	5 hours across 12 lessons
PROJECT	a client-ready brief, plan and evidence pack
SKILLS	SaaS, Stripe, Launch, Growth, Critical evaluation, Documentation
EDITION	Structured draft - version 0.9

WHAT YOU WILL BE ABLE TO DO

- Use SaaS appropriately in a realistic, bounded task.
- Use Stripe appropriately in a realistic, bounded task.
- Use Launch appropriately in a realistic, bounded task.
- Use Growth appropriately in a realistic, bounded task.

WHO THIS IS FOR

People developing evidence-based digital products and services.

BEFORE YOU BEGIN

- A problem area or customer group to investigate

Use this workbook with the online lessons. It is designed for A4 printing, handwritten evidence notes, and offline revision. It does not provide certification.

WORKBOOK GUIDE

A clear route through the course

Launch a SaaS Product is a structured, practical course covering SaaS, Stripe, Launch, Growth. It emphasizes explainable methods, checked work and a final outcome that can be reviewed.

MODULE	LESSONS AND FOCUS
01 SaaS: Customer evidence	1. Problem discovery with SaaS 2. Research with Stripe 3. Positioning with Launch
02 Stripe: Offer design	1. Scope with Growth 2. Value with SaaS 3. Pricing with Stripe
03 Launch: Delivery	1. Operations with Launch 2. Quality with Growth 3. Finance with SaaS
04 Growth: Sustainable growth	1. Measurement with Stripe 2. Retention with Launch 3. Risk with Growth

HOW TO USE EACH LESSON PAGE

- 1 Read the objective and identify the decision it supports.
- 2 Attempt the retrieval prompt before checking the online explanation.
- 3 Reproduce the worked example with the stated input.
- 4 Test one normal case and one boundary or failure case.
- 5 Record the result, limitation and next action in the evidence log.

PRINT AND FILE

Print at 100% scale on A4 paper. Use double-sided printing with long-edge binding. Keep completed pages with the project files named in the evidence log.

MODULE 01

SaaS: Customer evidence

Apply SaaS through problem discovery, research, positioning.

LESSON 01 / 18 MIN

Problem discovery with SaaS

Learning objectives

- Explain problem discovery in the context of Launch a SaaS Product.
- Apply SaaS to a bounded practical task.
- Evaluate the result using explicit quality criteria.

Key terms

problem discovery, SaaS, business

Retrieval prompt

In Launch a SaaS Product, which evidence best supports a problem discovery result produced with SaaS?

Evidence to keep

☐ Original input ☐ Observed result ☐ Boundary or failure result ☐ Limitation and next action

LESSON 02 / 22 MIN

Research with Stripe

Learning objectives

- Explain research in the context of Launch a SaaS Product.
- Apply Stripe to a bounded practical task.
- Evaluate the result using explicit quality criteria.

Key terms

research, Stripe, business

Retrieval prompt

In Launch a SaaS Product, which evidence best supports a research result produced with Stripe?

Evidence to keep

☐ Original input ☐ Observed result ☐ Boundary or failure result ☐ Limitation and next action

LESSON 03 / 26 MIN

Positioning with Launch

Learning objectives

- Explain positioning in the context of Launch a SaaS Product.
- Apply Launch to a bounded practical task.
- Evaluate the result using explicit quality criteria.

Key terms

positioning, Launch, business

Retrieval prompt

In Launch a SaaS Product, which evidence best supports a positioning result produced with Launch?

Evidence to keep

[] Original input [] Observed result [] Boundary or failure result [] Limitation and next action

MODULE REVIEW

Turn the module into usable evidence

1. RETRIEVE

Without checking the lessons, explain the module's three most important ideas in your own words.

2. APPLY

Describe the example or file you produced, the input used, and the result you observed.

3. REVIEW

Record one uncertainty, one source to recheck, and the next deliberate practice action.

MODULE 02

Stripe: Offer design

Apply Stripe through scope, value, pricing.

LESSON 04 / 30 MIN

Scope with Growth

Learning objectives

- Explain scope in the context of Launch a SaaS Product.
- Apply Growth to a bounded practical task.
- Evaluate the result using explicit quality criteria.

Key terms

scope, Growth, business

Retrieval prompt

In Launch a SaaS Product, which evidence best supports a scope result produced with Growth?

Evidence to keep

☐ Original input ☐ Observed result ☐ Boundary or failure result ☐ Limitation and next action

LESSON 05 / 18 MIN

Value with SaaS

Learning objectives

- Explain value in the context of Launch a SaaS Product.
- Apply SaaS to a bounded practical task.
- Evaluate the result using explicit quality criteria.

Key terms

value, SaaS, business

Retrieval prompt

In Launch a SaaS Product, which evidence best supports a value result produced with SaaS?

Evidence to keep

☐ Original input ☐ Observed result ☐ Boundary or failure result ☐ Limitation and next action

LESSON 06 / 22 MIN

Pricing with Stripe

Learning objectives

- Explain pricing in the context of Launch a SaaS Product.
- Apply Stripe to a bounded practical task.
- Evaluate the result using explicit quality criteria.

Key terms

pricing, Stripe, business

Retrieval prompt

In Launch a SaaS Product, which evidence best supports a pricing result produced with Stripe?

Evidence to keep

[] Original input [] Observed result [] Boundary or failure result [] Limitation and next action

MODULE REVIEW

Turn the module into usable evidence

1. RETRIEVE

Without checking the lessons, explain the module's three most important ideas in your own words.

2. APPLY

Describe the example or file you produced, the input used, and the result you observed.

3. REVIEW

Record one uncertainty, one source to recheck, and the next deliberate practice action.

MODULE 03

Launch: Delivery

Apply Launch through operations, quality, finance.

LESSON 07 / 26 MIN

Operations with Launch

Learning objectives

- Explain operations in the context of Launch a SaaS Product.
- Apply Launch to a bounded practical task.
- Evaluate the result using explicit quality criteria.

Key terms

operations, Launch, business

Retrieval prompt

In Launch a SaaS Product, which evidence best supports a operations result produced with Launch?

Evidence to keep

☐ Original input ☐ Observed result ☐ Boundary or failure result ☐ Limitation and next action

LESSON 08 / 30 MIN

Quality with Growth

Learning objectives

- Explain quality in the context of Launch a SaaS Product.
- Apply Growth to a bounded practical task.
- Evaluate the result using explicit quality criteria.

Key terms

quality, Growth, business

Retrieval prompt

In Launch a SaaS Product, which evidence best supports a quality result produced with Growth?

Evidence to keep

☐ Original input ☐ Observed result ☐ Boundary or failure result ☐ Limitation and next action

LESSON 09 / 18 MIN

Finance with SaaS

Learning objectives

- Explain finance in the context of Launch a SaaS Product.
- Apply SaaS to a bounded practical task.
- Evaluate the result using explicit quality criteria.

Key terms

finance, SaaS, business

Retrieval prompt

In Launch a SaaS Product, which evidence best supports a finance result produced with SaaS?

Evidence to keep

[] Original input [] Observed result [] Boundary or failure result [] Limitation and next action

MODULE REVIEW

Turn the module into usable evidence

1. RETRIEVE

Without checking the lessons, explain the module's three most important ideas in your own words.

2. APPLY

Describe the example or file you produced, the input used, and the result you observed.

3. REVIEW

Record one uncertainty, one source to recheck, and the next deliberate practice action.

MODULE 04

Growth: Sustainable growth

Apply Growth through measurement, retention, risk.

LESSON 10 / 22 MIN

Measurement with Stripe

Learning objectives

- Explain measurement in the context of Launch a SaaS Product.
- Apply Stripe to a bounded practical task.
- Evaluate the result using explicit quality criteria.

Key terms

measurement, Stripe, business

Retrieval prompt

In Launch a SaaS Product, which evidence best supports a measurement result produced with Stripe?

Evidence to keep

☐ Original input ☐ Observed result ☐ Boundary or failure result ☐ Limitation and next action

LESSON 11 / 26 MIN

Retention with Launch

Learning objectives

- Explain retention in the context of Launch a SaaS Product.
- Apply Launch to a bounded practical task.
- Evaluate the result using explicit quality criteria.

Key terms

retention, Launch, business

Retrieval prompt

In Launch a SaaS Product, which evidence best supports a retention result produced with Launch?

Evidence to keep

☐ Original input ☐ Observed result ☐ Boundary or failure result ☐ Limitation and next action

LESSON 12 / 30 MIN

Risk with Growth

Learning objectives

- Explain risk in the context of Launch a SaaS Product.
- Apply Growth to a bounded practical task.
- Evaluate the result using explicit quality criteria.

Key terms

risk, Growth, business

Retrieval prompt

In Launch a SaaS Product, which evidence best supports a risk result produced with Growth?

Evidence to keep

[] Original input [] Observed result [] Boundary or failure result [] Limitation and next action

MODULE REVIEW

Turn the module into usable evidence

1. RETRIEVE

Without checking the lessons, explain the module's three most important ideas in your own words.

2. APPLY

Describe the example or file you produced, the input used, and the result you observed.

3. REVIEW

Record one uncertainty, one source to recheck, and the next deliberate practice action.

CAPSTONE PROJECT

Produce a reviewable Launch a SaaS Product project using SaaS, Stripe, Launch.

DELIVERABLE	A working Launch a SaaS Product artefact plus an evidence-based self-review.
TOOLS	A suitable SaaS environment, A plain-text decision log, Test data or realistic sample material

Production plan

- 1 Define the intended user, outcome and constraints.
- 2 Create the smallest complete result using SaaS.
- 3 Test one normal case, one boundary case and one failure response.
- 4 Revise the work from the evidence and preserve before-and-after results.
- 5 Prepare a concise handover containing method, limitations and next step.

Definition of done

- The output matches the stated outcome.
- Inputs and decisions are reproducible.
- Boundary and failure evidence is included.
- Limitations and responsibility considerations are explicit.

PROJECT EVIDENCE

Document decisions another person can review

1. PURPOSE AND USER

State the intended user, need, expected outcome and constraints.

2. INPUTS AND ASSUMPTIONS

List source files, data, versions, permissions and assumptions.

PROJECT EVIDENCE

Tests, limitations and revision

3. NORMAL CASE

Expected result, observed result and evidence location.

4. BOUNDARY OR FAILURE CASE

What was difficult, what happened and why it matters.

5. REVISION AND LIMITATION

What changed, what improved and what remains unproven.

REVIEW AND SOURCES

Make the work credible and repeatable

Final self-review

- Can another learner repeat the method?
- Did I test a difficult case?
- Did I avoid unsupported claims?
- Is the next action proportionate to the remaining risk?

FINAL DECISION

Is the project ready to share? State the evidence, remaining risk, owner and next review date.
