

PRACTICAL COURSE WORKBOOK

E-Commerce with AI Tools

Develop a service or business process you can explain clearly

LEVEL	Beginner
GUIDED TIME	5 hours across 12 lessons
PROJECT	a client-ready brief, plan and evidence pack
SKILLS	Shopify, Dropshipping, AI ads, Analytics, Critical evaluation, Documentation
REVIEWED	2026-08-25

WHAT YOU WILL BE ABLE TO DO

- Use Shopify appropriately in a realistic, bounded task.
- Use Dropshipping appropriately in a realistic, bounded task.
- Use AI ads appropriately in a realistic, bounded task.
- Use Analytics appropriately in a realistic, bounded task.

WHO THIS IS FOR

People developing evidence-based digital products and services.

BEFORE YOU BEGIN

- A problem area or customer group to investigate

Use this guide beside the interactive lessons. Keep inputs, decisions, tests, limitations and the next improvement.

COURSE MAP

From foundation to finished work

E-Commerce with AI Tools is a structured, practical course covering Shopify, Dropshipping, AI ads, Analytics. It emphasizes explainable methods, checked work and a final outcome that can be reviewed.

MODULE	LESSONS AND FOCUS
01 Customer evidence	1. Problem discovery with Shopify 2. Research with Dropshipping 3. Positioning with AI ads
02 Offer design	1. Scope with Analytics 2. Value with Shopify 3. Pricing with Dropshipping
03 Delivery	1. Operations with AI ads 2. Quality with Analytics 3. Finance with Shopify
04 Sustainable growth	1. Measurement with Dropshipping 2. Retention with AI ads 3. Risk with Analytics

HOW TO STUDY EACH LESSON

- 1 Read the objective and identify the decision it supports.
- 2 Reproduce the worked example with the stated input.
- 3 Test one normal case and one boundary or failure case.
- 4 Complete the knowledge check without guessing.
- 5 Save a short evidence note: result, limitation and next action.

CAPSTONE PROJECT

Produce a reviewable E-Commerce with AI Tools project using Shopify, Dropshipping, AI ads.

DELIVERABLE	A working E-Commerce with AI Tools artefact plus an evidence-based self-review.
TOOLS	A suitable Shopify environment, A plain-text decision log, Test data or realistic sample material

Production plan

- 1 Define the intended user, outcome and constraints.
- 2 Create the smallest complete result using Shopify.
- 3 Test one normal case, one boundary case and one failure response.
- 4 Revise the work from the evidence and preserve before-and-after results.
- 5 Prepare a concise handover containing method, limitations and next step.

Definition of done

- The output matches the stated outcome.
- Inputs and decisions are reproducible.
- Boundary and failure evidence is included.
- Limitations and responsibility considerations are explicit.

Evidence log

INPUT	Original brief, data, requirements or test material.
DECISIONS	Chosen method and one reasonable alternative.
TESTS	Normal, boundary and failure results.
LIMITATION	What the result does not establish.
REVISION	One evidence-led improvement.

REVIEW AND SOURCES

Make the work credible and repeatable

Final self-review

- Can another learner repeat the method?
- Did I test a difficult case?
- Did I avoid unsupported claims?
- Is the next action proportionate to the remaining risk?
